a provocative look at how the bible should define the identity of a woman and her choices about femininity

what do you believe about women's roles in church leadership should women lead groups that include men should women preach should women be ordained more importantly why do you believe what you believe plenty of books exist telling women what to think precious few help women think for themselves particularly about theological issues women leadership and the bible helps women learn to interpret the bible and discern for themselves answers to their questions about women's roles in the church along with any other issue they may face in life in straightforward plain language dr natalie eastman introduces women to a five step easy to follow process for studying the bible and interpreting what they study note to designer if there is not enough space on the back cover then cut the following section in italics this book encourages women that they can think for themselves and can analyze significant theological issues despite any hesitations they may have any conflict surrounding an issue or any lack of theological training by the time readers finish this book they will have a biblically defensible theologically reasoned and thoroughly discerned understanding of what they believe scripture says about women's roles and how that understanding could play out within the church no longer will they

feel as though they have nothing to contribute when the subject of women's roles or any other of life's theological questions arises

a charge to women to recover what the feminist revolution has robbed them of the god-given beauty, wonder and treasure of their distinctive calling and mission. The feminist revolution was supposed to bring women greater fulfillment and freedom, yet women today feel anything but fulfilled and free because they have lost the distinctiveness and richness of their calling. As women now, a movement is spreading seeds of hope, humility, obedience and prayer, a call to return to godly womanhood and its truth will resound in the hearts of readers through the powerful messages of Nancy Leigh DeMoss, Susan Hunt, Mary Kassian, Carolyn Mahaney, Barbara Hughes, P. Bunney Wilson and Dorothy Patterson. Though each author approaches the subject of godly womanhood differently, a thread runs throughout that will instill joy and delight at the greatness of God's created order and the part he wants women to play in his grand redemptive plan. Includes a study guide.

What does the Bible teach about how to live in today's world? How should Christians live when the surrounding culture is increasingly hostile to Christian moral values? Granted, the Bible is our guide, but how can we know if we are interpreting it rightly with regard to ethical questions about wealth and poverty, marriage and divorce, birth control, abortion, euthanasia, homosexuality, ethical business practices, environmental stewardship and dozens of other issues? And on a very practical level, how can we know God's will in the ordinary decisions of life to address questions like these? Wayne Grudem, author of the bestselling book *Systematic Theology*, draws on 40 years of teaching classes in ethics to write this wide-ranging introduction to biblical moral reasoning. Organized according to the structure of the Ten Commandments, he issues a challenging call for Christians to live lives of personal holiness and offers a vision of the Christian life that is full of joy and blessing through living each day in a way that is pleasing to God. Written by Wayne Grudem, bestselling author of *Systematic Theology*, and the *What the Bible Says About* series, biblical and applicable teachings readers how to protect 7 central tenets of God's law: God's honor, human authority, life, marriage, property, truth and purity of heart. Accessible, an ideal textbook for Christian college and seminary ethics classes with straightforward language and a bibliography for the topic at the end of each chapter. An old African American churchgoer's saying rings true for most religious denominations in the United States: women are the backbone of the church. For centuries, women have been the majority of members in almost all religious groups; they provide essential financial and social support and work tirelessly in the background of all church-based activities. Yet it is largely men who occupy the high rungs of church hierarchy and they are the ones who get most of the credit. Ann Braude examines the important role of women in American religious history, focusing on their recent admission to public religious leadership and their fight for equal rights and recognition through the centuries. Both noted and little-known women such as Margaret Winthrop, Jarena Lee, Mary Baker Eddy, Henrietta Szold, Aimee Semple McPherson and Mary Daly spring to life in the pages of this thorough, passionate book.

This concise and intelligent introduction draws from a wide variety of cultures and faiths to consider all the major themes of the psychology of religion from the effect of religious beliefs on

emotional well being to the psychological effects of prayer
